

# IN-DISPOSABLE

Thomas Kwan

19th Jan. 2019

# Project Purpose

- Provide economically feasible solution to replace all disposable equipment in Food & Beverage Industry with reusable equipment

# Why

## ■ Pollution

# Why

- Waste
- Not enough land fill
- Could release harmful material
- More & more coming...

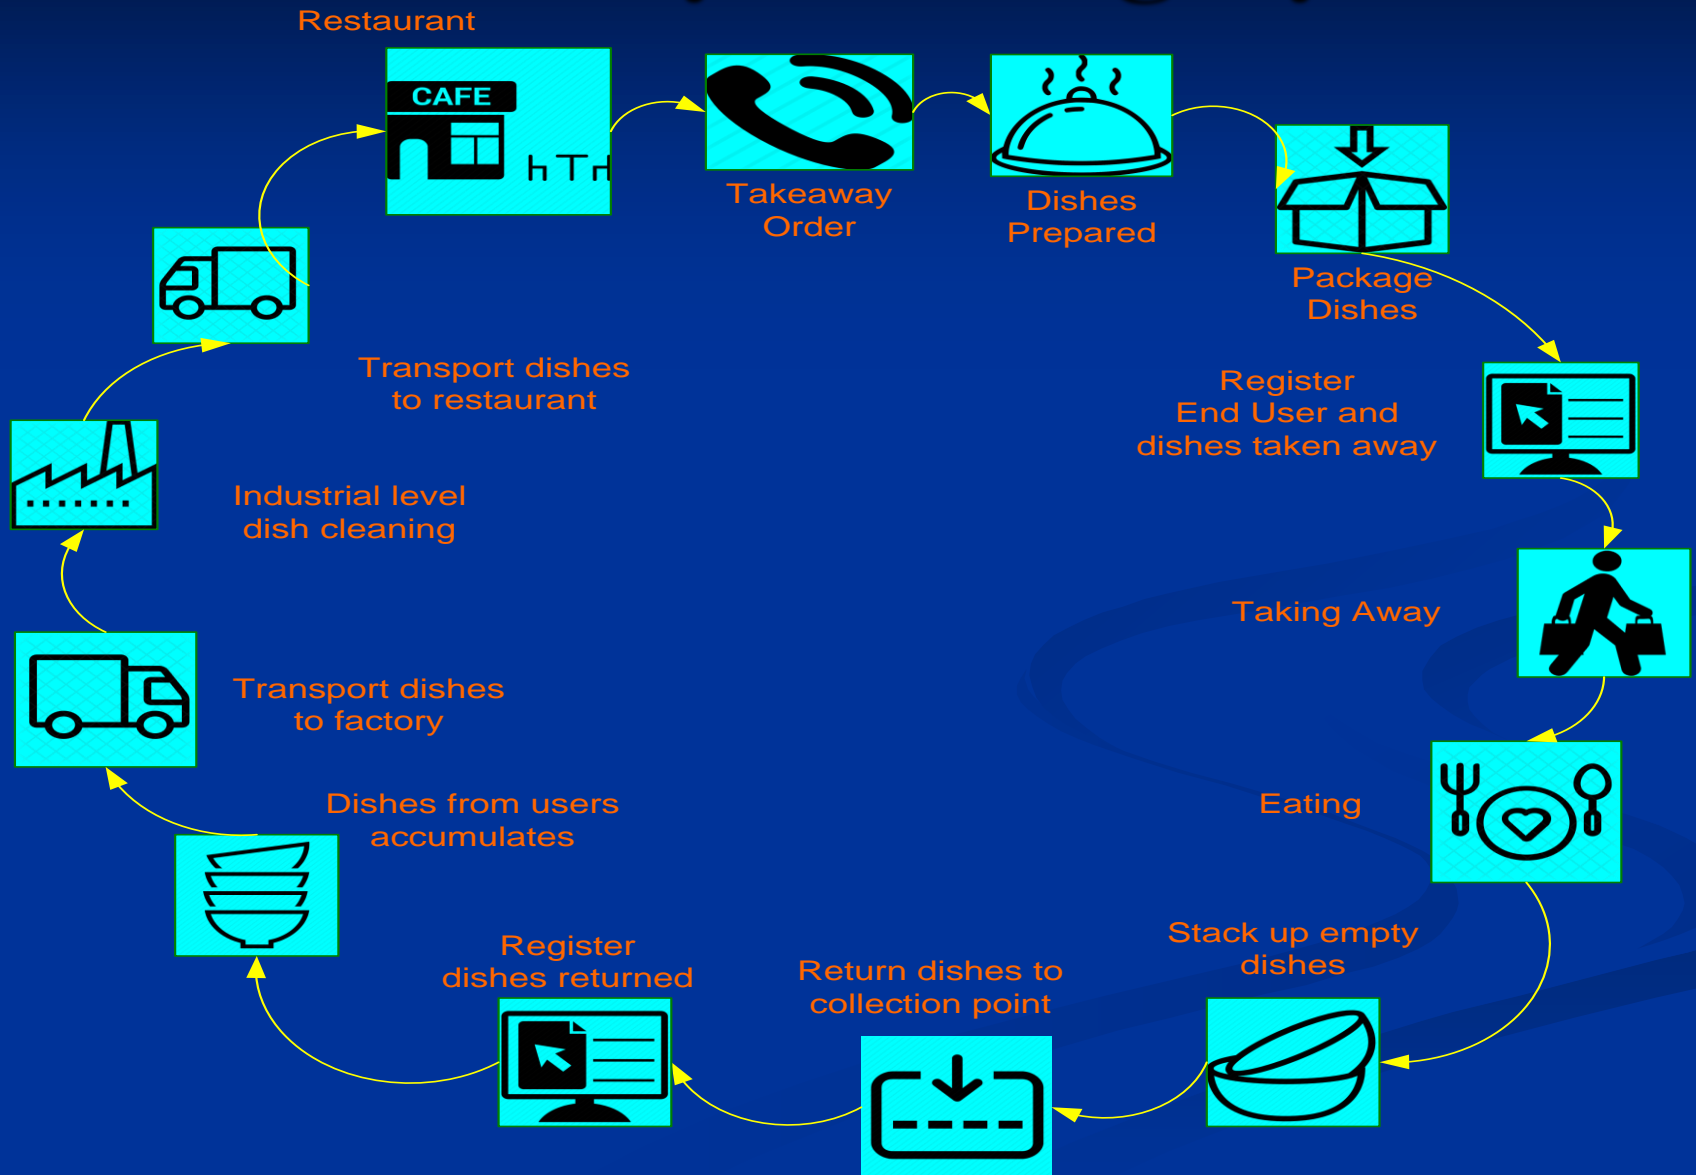

# Devil Delivers Disposable

- Takeaway contributes most of the disposable equipments
- The new bomb of food delivery directly increases dramatically takeaway order for shops
- The solution is Takeaway Material Reusing System

# Takeaway Reusing Cycle

# Takeaway Material Reusing System

- High infrastructure investment is needed
- Collection Points must be easily available
- Takeaway Material / Equipment must be standardized

# Takeaway Material Reusing System

- Can start implementation from small area such as district neighborhood level
- The system infrastructure can be extended to all other reusable product other than only for F&B industry

# Non-Takeaway Disposable Material

- Disposable Materials are also used in Non-Takeaway meals in restaurants
- Chopsticks, spoons, bowls, paper cups etc
- Especially in small restaurants
- Because space limitation, high cost of cleaning

# Dish Washing Out Sourcing

- Is a possible solution to lower cost of dish washing
- The industry is currently running and economically profitable
- However the industry needs to be improved and optimized to absorb dish cleaning from even the small restaurant
- The current industry is a natural partner with **INDISPOSABLE**
- Very likely willing to offer sponsor

# Proposed Road Map

- Kick Start meeting
- More discussion within core members
- Identify expertise / strength of each member
- Register an official NGO in Hong Kong
- Create material for promotion campaign
- Build relationship with the existing industry and other NGO
- Receive sponsorship / donation
- Start public promotion campaign
- Work in more detail design of any part of Reusable Cycle for Takeaway and Non-Takeaway
- Build standards for the designs

# Positions and Vacancies

Position	Vacancies
Web Technical Support	1+
Animation / Graphic Designer	2++
Web Designer / Master	1+
